DETAILED ACTION

Terminal Disclaimer

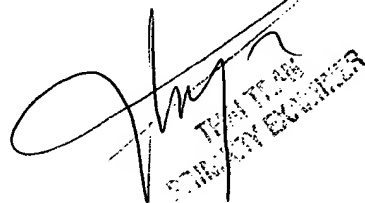

1. The terminal disclaimer filed on 7/31/2006 disclaiming the terminal portion of any patent granted on this application has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 1, 4, 11, 5, 8, 17, and 18 allowed.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a recording apparatus and method for allowing a video signal that has been compression-encoded to be recorded as clocks. The independent claims 1 and 4 identify the uniquely distinct feature, "determining means for determining whether the header of the highest hierarchical level is absent of an inconsistency of encoding syntax takes place." The independent claims 11 and 8 identify the uniquely distinct feature, "determining means for determining whether the quantizing matrix is absent or abnormal." The closest prior art, Yoneyama (US Pat. No. 5,701,386) fails to anticipate or render to the above underlined limitations obvious.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
